#FUTUREGOALS

Will robots take over?

New technologies are changing the way that construction processes are carried out. In general, workers will need a higher level of skills particularly in problem solving.

#FUTUREGOALS

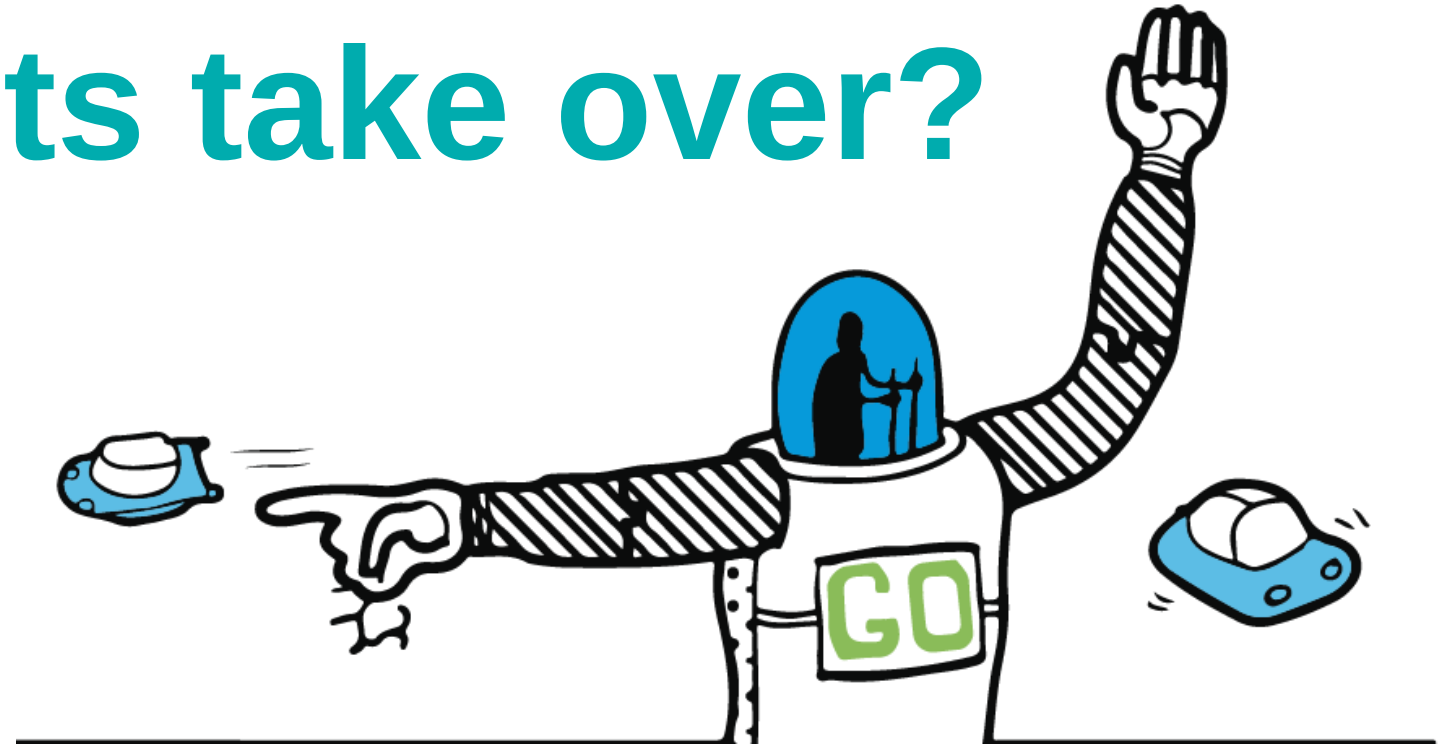
Will robots take over?



Robots are being used in surgery, to measure data and fight diseases. However, most jobs in health and care require human interaction skills making them difficult to automate

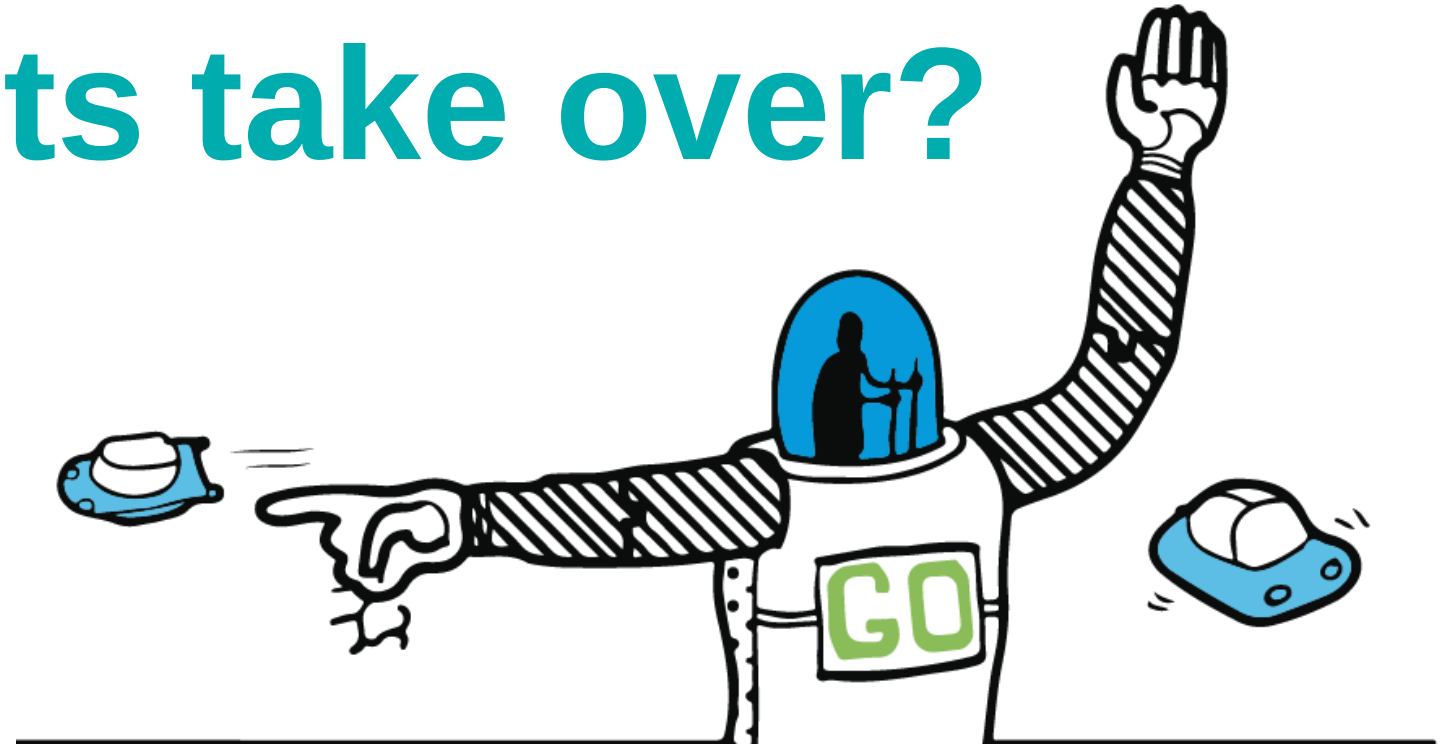
Some of the most in-demand jobs:

- Accountant
- Business analyst
- Project manager
- Finance controller
- Finance manager
- Financial accountant
- Finance analyst

Will robots take over?



Some legal sector intelligent search systems can now out perform junior lawyers and paralegals, however in finance it's much more difficult to automate audits/risk management
