

UNIVERSITY OF CAMBRIDGE

Cambridge University Research Study – Sign Up Details

For students under 18

Please ask their parent/caregiver to follow this

link: https://cambridge.eu.qualtrics.com/jfe/form/SV_6mmnVrm7UqAjYWO

This will bring them to an Information Sheet with further details about the CaM-App study. After reading this, parents will be taken to a Parental Consent Form which they are required to complete, including entering an email address. We ask parents to ensure they input their email correctly as they will be sent a link via email for their child to complete their Under 18 Assent Form and then begin their participation. After completing the Assent process, participants will be asked to complete the first questionnaire and then provided instructions to download the EARS app.

For students 18 and over (adults)

Please ask students aged 18 and over to follow this link:

https://cambridge.eu.qualtrics.com/jfe/form/SV_8csmoLHo7Oalm6

This will bring them to an Information Sheet with further details about the CaM-App study. After reading this, they will be taken to an Adult Consent Form page which they are required to complete. After completing the consent process, participants will be asked to complete the first questionnaire and then provided instructions to download the EARS app.

Please note anyone else who wishes to also take part alongside the students, for instance, older siblings, parents, teachers, or other staff, can also do so by using the above link.

If the students or parents have any further questions or any issues arise, please don't hesitate to contact me.
